You are telling me this wasn't done with either the advice or support of the PBID? Then it could only be the CD15 office.

James,

I am not familiar with this project or who initiated it. At the start of this project, someone initiated some boundaries. You would need to find out who and ask them why.

Perhaps call the number listed.

Lorena, can you explain why it is that the extended lighting district doesn't extend all the way up to Mesa Street?
